To Whom It May Concern:

Mrs. Dominika Domagalska is self-motivated, travel professional experienced in many areas related to airline industry. She is very much target oriented and motivated by reaching settled goals. As one of our key sales person among foreign representations she was given opportunity to transform our own office into GSA, she was able to create company and make decision within few days and after successful start up even became leading country in term of revenue growth. I would highly recommend her as person, and her company for airline representation services.

Best regards Jiri Marek
